# FINAL YEAR PROJECT UNDERTAKING FORM

*(Institute of Southern Punjab)*

It is declared that I have developed a software consisting of modules in which I manage the record of Dental Clinic Management System and written this report under the guidance of my project supervisor on the basis of my personal effort. The report and the system that we submitted for the completion of Final Year Project are investigation and effort of my own. I understand that, the deceiving and plagiarism occur a serious contravention of the university governance, which will not only give us a failing grade for our Final Year Project but also vulnerable to our farther disciplinary actions.

# **DEDICATION**

This Project (Dental Clinic Management System) I'm dedicating to My Loving Parents, Friends and Respected Teachers, who prayed for my success and all my supporting ones whom I love and respect from the core of my heart.

(September 2020)

# ACKNOWLEDGMENT

All thanks are to almighty ALLAH the most beneficial, merciful and gracious who gave me the courage to complete the task assigned to me.

I would like to express my deep and sincere gratitude for my university, institute of southern Punjab for assigning Sir Zeeshan Haider Ali as my supervisor. I would also like to thank my supervisor for giving me the opportunity to do my project under his supervision and providing invaluable guidance throughout this project. His dynamism, vision, sincerity and motivation have deeply inspired me. He has taught me the methodology to carry out the project and to present my project as clearly as possible. It was a great privilege and honor to work and study under his guidance. I am extremely grateful for what he has offered me. I would also like to thank him for his friendship, empathy and great sense of humor.

# ABSTRACT

As a student of computer science and having interest in web development technologies I have built a social platform for ex-smokers, smokers and vapers. There are a lot of smokers whom are trying to quit smoking because of their health issues they are facing or for their better health but most of the smokers whom try to quit smoking without any gaudiness they end up again smoking because of the side effects they face in the process. There's a saying "No one understand unless they've been through it" keeping this quote in mind I have built a platform to provide a circle of like-minded people whom are trying to quit smoking. This platform will provide a circle of like-minded people so they understand each other's problems what they are going through so they can build a better communication channel to help each other my share problems, experience and solutions for the problem. Ex-smokers will be able to help others by sharing while quitting the smoking habit what kind of alternate they use and what alternate worked for them in the process. Purpose is helping the smoker so they can easily quit smoking without any complications.
